EHS Policy:

Acciona Energy North America is committed to maintaining a safe & healthy workplace environmental responsibility, pollution prevention, and compliance with all applicable legal and regulatory requirements. To achieve this goal we have developed and maintain an integrated ISO 14001 based EMS and OHSAS 18001 OHS that includes:

- Processes for identifying and managing environmental aspects as well as health and safety risks and hazards,
- Process and operational controls, and
- Measurable environmental, health, and safety objectives and targets.

Furthermore, we strive to maintain and improve a cooperative work environment that is conducive to meeting environmental requirements, enhancing employee safety and satisfaction, and continually improving the effectiveness of our Lean BOS<sup>®</sup>. Pollution prevention, maintaining a safe and healthy work place, continual improvement, and regulatory compliance are the personal responsibility of each employee.
